Subject: West Lake Landfill, FW: Plan review

Ed, Thabet,

At Cecilia's request I am forwarding the six workplans for the Supplemental Supplemental Feasibility Study at West Lake Landfill and the comments the State of Missouri and EPA HQ

have generated on those workplans.

Please review and provide your own comments on the SSFS workplans as you see fit. I am trying to organize a meeting in mid-to-late September (weeks of September 16th and 23rd) where the PRPs can ask questions and get clarification on EPA and State of Missouri comments on these workplans prior to revising the workplans and beginning the work. I'd like your comments before then so the PRPs can have a look at them prior to the meeting. Please let me know your availability to participate those weeks by conference line or in person.

The site-specific time charging code for this work is 2013 T 07WD 303DD2 0714BD01.

Sincerely,

Daniel R. Gravatt, PG

Dan, go ahead and send the workplans and all comments received so far to Dr. Barth. Also it looked like Thabet was interested so you can copy him.

Subject: Plan review

Hi Cecilia-

Dr. Ed Barth indicated that he may be able to provide a review of the regrading/capping plan for the rad waste site we discussed. If possible, please have the RPM for the site send a hard-copy of the plan to Ed for his review.

I hope this is helpful.

Thank you,

John
